### Silver Lining Carnival 2013

On Saturday, 26 October 2013, a group of 13 staff and students (mainly Year 2 and Year 3 DDEE students) spent a fruitful day at Singapore Expo spreading joy and fun to elderly participants at the “Silver Lining” Carnival 2013.

The “Silver Lining” Carnival 2013, sponsored by Standard Chartered Bank, is the largest community event for the elderly organised by a corporate in Singapore as reported by Channel Newsasia. The Guest-of-Honour for the carnival is Minister Chan Chun Sing, Ministry of Social and Family Development. The one day event attracted more than 800 elderly participants.

For the carnival, the students involved are required to conceptualise and develop prototypes for three different games booth, tailored to entertain the elderly. Planning and brainstorming sessions for game booths started in early August. Intensive design and implementation took place during the October holidays from 7 Oct to 18 Oct. The following games booths were designed and implemented at the carnival.

#### Game Booth #1 Zoo Time
Animals including prehistoric ones are brought to life via augmented reality in this game booth. The elderly participants are required to interact and pose with the animals and take photos with them based on instructions from our RP “zoo keepers”.

#### Game Booth #2 Catch & Win
In this game booth, elderly participants are required to manoeuvre a customised wireless controller to remotely control a robot to catch monsters in a forest.

#### Game Booth #3 Steady
This game booth features the popular steady hand game which puts the elderly participants eye and hand coordination to the test.

We would like to thank Chee Keat, PC(DDEE) for his full support for the community project as well as TSEs Syahidah, Edison and Simon for all the help rendered.

Below are the photos taken during the carnival! Enjoy!
