

Republic Polytechnic (RP) Career Fair 2018

Welcome to RP Career Fair 2018!

RP Career Fair 2018 marks our thirteenth year for this annual recruitment event. This fair is specially organised for you, bridging you with employers from various industries and sectors. The career fair will also be a great platform for you to be exposed to the different participating companies and learn about the different career pathways to help you make informed decisions about your career plans.

It gives you a great platform to find out the relevant skills set employers are looking for in every graduating student.

Each year, this on-campus career fair offers many job opportunities for RP graduating students and graduates.

This is the third year which we have jointly organised this event with our valued partner e2i, the Employment and Employability Institute, to heighten the fair experience for you and our employers.

Through this event, we hope to create a win-win platform where students get to meet potential employers, and organisations can widen their recruitment base to meet choice candidates for their team.
